ABOUT US

R . Valves Industries

R. VALVES INDUSTRIES Company was conceived in the year 2005 with the conviction of achieving excellence in valve manufacturers & suppliers of both sided flanged gun metal wheel valve, one sided flanged cast iron wheel valve & both sided flanged cast iron wheel valves in **Jalandhar, Punjab**. Our products are made from high-quality materials such as **MS, carbon steel, SS, alloy steel, naval brass, copper, nickel, brass, inconel, monel, and others**, ensuring exceptional durability and high tensile strength.

With a dedicated team of professionals, we employ the latest tools and machinery in our modern manufacturing unit, ensuring the production of dimensional accuracy and high-quality products. Our state-of-the-art warehouse facility helps us stock bulk inventory and efficiently meet urgent customer demands, improving the supply chain process. Guided by our Team, we have achieved significant growth, expanding our client base across India and to our success in the competitive market.

QUALITY ASSURANCE

For us maintaining quality standards in all our business activities remains the first priority. Thus, we have appointed experienced quality controllers who conduct stringent quality checks by providing working drawings and gauges at all levels of the workmen. By doing this, we guarantee our products for trouble free service. Furthermore, for this purpose, we have built separate ultra-modern testing facilities where our quality controllers check the physical and chemical properties of the materials used. The laboratories are taken care of by qualified and experienced engineers.
